REASON FOR ALLOWANCE

The following is an Examiner's Statement of Reasons for Allowance:

Applicants have limited the claims to specific salts of hydrochloride acetone solvate, malate (1:1) and sesquimalate (3:2) and dihydrate which unexpectedly forms pure crystalline than the generically taught addition salts of the prior art which forms gumball (see Table p.13). The process claim has also been limited to the methanol based on applicants' argument that the methanol/water ratio is the crucial feature for making the crystalline pure compounds.

Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably accompany the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Celia Chang whose telephone number is (703) 308-4702.

Any inquiry of a general nature or relating to the status of this application should be directed to the Group receptionist whose telephone number is (703) 308-1235.
